Dear Lisa Thompson,

On August 5, 2024, I emailed you an open letter regarding a homemade billboard that has often appeared on Highway 21 just north of Goderich.

Many area residents co-signed that letter and it has appeared in both the Kincardine Record and the Goderich Sun.

In that letter I called upon local representatives to respond by denouncing the display and the racist ideology that it represents.

A month has passed since I reached out, but I have not received any response from your office. In the meantime, the number of signatories to that letter has grown. I have attached an updated copy here.

Given that this homemade billboard implies enthusiastic support for both your political party and a known hate group, I had anticipated a clear and swift response.

Would you care to comment at this time?

Sincerely,

Patrick Corvyn, RN

Goderich Resident
