Hello Trevor,

I was doing some background prep for an interview I'm doing with CTV news on Thursday and I came across this story.

Apparently there was recently a meeting of neo-Nazis here in Goderich and they even took pictures of their activities at the GDCI track (see link below or search for antihate.ca and see recent news stories).

I strongly recommend that town council take a leadership role in actively denouncing this activity. Hate cannot be allowed to take root in our town.

Sincerely,

Patrick Corvyn
