Hi Fadi!

Thank you so much for continuing to report on the appearance of hate activity in and around Goderich.

Hate movements thrive in the darkness so your continued journalism on this topic so dearly welcome.

I do want to point out a crucial distinction though. On October 21, 2024, Goderich Town Council passed a motion that fell just short of denouncing neo-Nazi ideology. They did not identify the current threat by name and that was a significant omission from the draft motion I had submitted.

I am wondering if you would be willing to re-examine your article in this light. I will forward you the call to action that I just sent out to our supporters list.

I wish you all the best and thank you for your continued efforts to shine needed light on hate activity.

Yours sincerely,

Patrick Corvyn
