Hello Goderich Recreation,

We are reaching out to organizations in the Goderich area that rent venue space to the public concerning a disturbing recent development.

A recent increase in local online neo-Nazi and white supremacist activity has captured our attention, particularly a recently created Facebook page called the "Huron County [REDACTED]s." This page features a quotation promoting "deadly hatred" attributed to George Lincoln Rockwell, the founder of the American Nazi Party. The page contains numerous posts featuring extreme racist and antisemitic content, along with readily identifiable Nazi symbology.

The "Huron County [REDACTED]s" page features the ensign, colours, and branding of Second Sons Canada, identified as the largest white supremacist network in Canada. An article in the CBC today describes how the Second Sons recently held a large rally in a small community outside of Calgary, leaving residents disturbed and shaken.

Given the emergence of the Huron County [REDACTED]s page, which contains an image of the Goderich lighthouse, we suspect that Second Sons Canada has taken an interest in our community. We would advise organizations that rent to the public to check their upcoming bookings, particularly this Saturday (August 8 holds particular symbolic significance to white supremacist and neo-Nazi networks). These groups tend not to disclose the true purpose of their booking.

We also once again welcome organizations to sign our Lighthouse Accord, a set of statements of unity and shared commitments to peace. The accord is voluntary and is not legally binding. Among its statements is a commitment not to provide venue space to hate groups like Second Sons Canada. Please let us know if the Town of Goderich would like to join No Hate in Huron, Huron County Pride, Huron County Quakers, Lakeshore United Church, and Artemis Huron in becoming a signatory.

If you have any further questions, please do not hesitate to reach out. We can disclose privately the names of specific individuals to be aware of.

Best regards,

Patrick Corvyn
